

Arts

Learn by making, doing, debating, and creating as you join a mix of open-minded people who are fired up by culture – and its potential to create a better world.

Culture shapes our world. At SOAS, you'll be empowered and equipped to shape culture – one that's diverse, equal, and sustainable. From the heart of a truly global city, you'll develop the critical non-Western perspective, theoretical knowledge, and practical skills you need to navigate the future of the cultural industries. From festivals to fashion houses, our students have even established their own organisations all across the globe.

You'll enjoy choosing from a huge array of modules, taught by deeply experienced staff who are world-renowned in their own fields. And our teaching methods are just as varied. Lectures, student-led seminars, one-to-one supervision, workshops, and potential work placements all enrich our heady mix of creative stimulation, inspiration, and education. We'll also introduce you to a whole host of exciting ideas and perspectives – then inspire you to pursue your own passions, from curation to creation.
